Subsidy Efficiency: \$50,498 per MIP restricted unit.

Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

• 4% Federal Tax Credits: \$55,303,203 assuming estimated pricing of \$0.995 (\$272,430 per unit).

Rental Subsidies: The Project will not be subsidized by project-based vouchers.

Other State Subsidies: The Project will not be funded by other state funds.

Other Locality Subsidies: The Project will be funded by locality funds of \$31,961,997 (\$157,448 per unit) from the Mayor's Office of Housing and Community Development ("MOHCD").

Cost Containment Strategy: The Developer will competitively bid all trades, obtaining a minimum of 3 bids, and implement design standards that facilitate efficiency in cost and construction scheduling. Prior to construction loan closing, CalHFA will require the Developer to certify that cost containment measures have been implemented.

High Cost Explanation: The total development cost per unit is \$743,347 per unit, which is high. The reasons given for the costs are as follows:

- a) Commercial relocation costs: \$252,000.
- b) Holding and predevelopment costs: \$384,733.
- c) Davis Bacon and local hiring requirements (estimated): \$8,350,000.
- d) Site conditions (staging on a small site, site security, storm water prevention): \$2,572,500.
- e) City of S.F.-specific code requirements (energy efficiency, storm water, utility distribution) and taxes: \$11,943,400.
- f) Permit & impact costs: \$3,150,000.
- g) The developer fee is \$10 million, which is allowed per TCAC and CDLAC regulations in order to boost the eligible basis. Deducting the developer equity contribution: \$2,250,000.

Deducting these costs results in an adjusted total development cost per unit of \$600,941per unit.

4. Equity – Cash Out (estimate): Not Applicable

Ground Lease: Prior to construction loan closing, the property will be sold to MOHCD and a ground lease agreement will be executed for a term of 75 years, with a 99-year renewal option. The annual lease payment is \$15,000.
Project Amenities: The Project amenities include a community room with meeting, office and service space and a community kitchen. There will be laundry rooms, courtyard space, a community garden and 254 bike parking spaces. Unit amenities will include: central heating, microwave, dishwashers, ceiling fan and patio/balconies.
Commercial Space: The Project consists of 1,970 sq. ft of commercial space, which is intended to be leased to a community-based non-profit to serve the community. The operating income and expenses are not part of the underwriting.
Relocation : There is currently a parking lot, two billboard signs and two commercial buildings on the site which are occupied on month-to-month leases. Commercial relocation is required and \$252,000 is included in the budget.
Local Resources and Services: The Project is located in a Low Resource area, per TCAC's Opportunity Area Map. However, the Project is in close proximity to the following local amenities and services and is within walking distance to downtown:
Grocery stores – .3 miles
• Schools – 1.3-2.6 miles
Public Library – .5 miles
Public transit1 mile from bus stop, .3 miles from Powell Street BART Station
Retail3 miles
Park and recreation3 miles
Hospitals9 miles
Post Office5 miles
Non-displacement <u>and</u> No Net Loss: To the extent feasible, it is the Agency's priority to mitigate multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.

TRANSACTION OVERVIEW

6. Proposal and Project Strengths

- The developer and property manager have extensive experience in developing similar affordable housing projects and have five projects in the CalHFA portfolio, all of which are in compliance.
- The Project has been awarded 4% tax credits which is projected to generate equity representing 37% of total financing sources.
- The Project will serve low-income families ranging between 50% to 80% of AMI.
- The rents are 40% to 90% of market and 51% of the units are at 50% AMI.
- The Project's location is highly walkable and is within easy walking distance of transportation, services, employment and schools.
- The Loan-to-Value is 65% which is well below the Agency's minimum requirements, providing less risk to the Agency.
- The locality has invested in the success of the Project as demonstrated through a 55-year permanent loan of \$31,961,997 and favorable terms provided by a 75-year ground lease.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$3,250,000, which could be available to cover cost overruns and/or unforeseen issues during construction.
- The developer is contributing \$2,250,000 via GP contribution to the Project.
- Comprehensive on-site services will be offered to all tenants and will be staffed by a full-time services coordinator. Services include development of individualized service plans, case management, supportive services, counseling, crisis intervention, and linking tenants to medical, mental health, substance abuse, employment and job training services. The cost of the services is \$144,646 (service coordinator \$135,000 and miscellaneous cost of \$9,313) annually and is included in the operating budget.
- The exit analysis assumes 2% cap rate increase and 3% increase of the underwriting interest rate at loan maturity. The permanent loan is a 30-year term amortized over 40 years. Based on these assumptions, the Project will be able to repay the MIP loan in full via a refinance in 30 years.

7. Project Weaknesses with Mitigants:

The Project is in an area that has a crime rate that is above the national average. To mitigate potential impact, security measures include perimeter fencing, gated entrance, 24-hour property management, video surveillance and security and intercom systems, the cost of which is included in the operating budget.

8. Underwriting Standards or Term Sheet Variations

- The MIP loan per unit is \$50,498 which exceeds the term sheet maximum of \$50,000 for a project with affordability levels between 50% and 80% AMI. This is an exception to Policy and is recommended by Multi-Family Underwriting and Credit Staff subject to CalHFA being the permanent lender and based on the following: 1) approval facilitates the progression of a shovel ready project without delay; 2) there are no state credits, therefore a higher MIP loan per unit is required to fill the gap.
- The USRM requires the MIP loan to be recorded in second lien position behind the first mortgage. However, due to the size of the MOHCD loan, MOHCD requires this loan to be in second lien position and the MIP loan to subordinate in third lien position. This is an exception to policy and is recommended by Multi-Family Underwriting and Credit staff.

9. Project Specific Conditions of Approval Approval is conditioned upon: The CalHFA loans will be secured against the leasehold interest in the land and fee interest in the improvements. All subordinate loans are to be secured in the same manner. However, if any lender encumbers both fee and leasehold interests in the land, the CalHFA loan documents will also be secured in the fee and leasehold interest in the land. Borrower must meet all CalHFA requirements associated with the ground lease structure. Subordination of the MIP loan to the MOHCD loan. Pursuant to the City of San Francisco's entitlement requirements, the City's regulatory agreement and declaration of restrictive covenants and notice of special restrictions must be recorded ahead of the bond and MIP affordability covenants. The final document is subject to review and approval by CalHFA. The MOHCD loan documents are to be approved by the San Francisco Board of Supervisors prior to construction loan closing. These documents are subject to CalHFA review and approval. Evidence of relocation plan approval by MOHCD is required prior to construction loan closing.

- No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as state on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing. For instance, if the permanent loan interest rate decreased, then the subsidy may be reduced due to additional debt generated by the lower interest rate. The debt service coverage ratio ("DSCR") shall be a maximum of 1.20. An increase of the subsidy loan will not be allowed and will be subject to Agency's approval.
- Independent review of the costs by a 3rd Party consultant prior to construction loan closing.

10. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amounts requested, subject to the above proposed terms and conditions.

MISSION & AFFORDABILITY

11. CalHFA Mission/Goals

This Project and financing proposal provide 201 units of affordable housing with a range of restricted rents between 50% AMI and 80% of AMI which will support much needed rental housing that will remain affordable for a minimum of 55 years.

12. CalHFA Affordability & Occupancy Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 40% of the total units at or below 60% AMI with 10% of these units at 50% of AMI for 55 years.

The CalHFA MIP Subsidy Regulatory Agreement will restrict 10% of total units (22 units) at or below 50% of AMI and 10% of total units (22 units) between 60% and 80% of AMI with a minimum average of 70% AMI. The remaining 157 will be restricted at or below 120% of AMI. The affordability restrictions for the Mixed Income Program require at least 10% of the units be restricted to 81% to 120% of AMI, with an average of 100% of AMI, if supported by a market study. However, per an appraisal dated 10/27/2020 the Project can only support rents at a maximum of 80% AMI and still comply with the requirement that rents be 10% below market. Therefore, this project will comply with affordability requirement of 60% to 80% of AMI with an average of 70% of AMI.

In addition, the Project will be restricted by the following jurisdictions as described below:

• The City will restrict 201 of the units at or below 80% of AMI for a term of 55 years.

APPRAISAL AND MARKET ANALYSIS

18. Appraisal Review

- The Appraisal dated 10/27/20 prepared by Novogradac values the fee simple interest in the land at \$29,600,000.
- The cap rate of 3.75% and projected \$2,598,368 of net operating income were used to determine the appraised value of the subject site, which includes \$32,000 in net commercial income. After deducting commercial income from the appraisal's estimate, the appraisal and underwriting are fairly consistent.
- The proposed operating expense is consistent with and is reasonable based on the appraisal report
- The as-restricted stabilized value is \$69,000,000, which results in the Agency's loan to value of 65% (LTV for the permanent and MIP loan is 80%).
- The vacancy rate for the five affordable comparable properties averages 1.5% and all of the properties had lengthy waiting lists. However, a 5% vacancy rate is assumed in the evaluation and in the loan underwriting.
- The appraisal states that 3 of the five comparable properties do not offer on-site parking. Given the fact that the Project has excellent access to all forms of public transportation and is in a core downtown San Francisco area, the lack of parking is not considered a detriment.
- The capture rate is 1.3% of the eligible tenant population. The absorption rate of 4 months assumes pre-leasing initiatives and is consistent with the market study.
- The appraisal concluded market rents that average 17% below the market rents stated in the market study. The
 appraisal contains updated information regarding market conditions and the appraisal's market rents are used for
 underwriting.

TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

Qualifications	 Available to for-profit, non-profit, and public agency sponsors. Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption. The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits. If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet). For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract. The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program. For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy.
Loan Amount	 Minimum Perm Loan amount of \$5,000,000. Minimum 1.15x for debt service coverage ratio (include any financing with amortizing debt). Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.
Fees (subject to change)	 Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward the CalHFA Loan Fee. Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing. Cost of Issuance Fee: \$110,000, half due at final commitment, with balance due at Perm Loan Closing. Credit Enhancement Fee: included in the interest rate. Annual Administrative Fee:: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program). Inspection fees should be estimated at \$500 - \$1,000 per month (reports and fees can be shared with other construction lenders) Legal Fee: \$35,000 due at Perm Loan closing. Administrative Fee: \$1,000 at Perm Loan closing. Letter of Interest Fee: \$5,000 at LOI request, and is credited towards the CalHFA Perm Loan Fee

Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. MIXED-INCOME LOAN PROGRAM

Mixed-Income Subordinate Loan Rates & Terms (Continued)	 Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s), the original MIP annual fee schedule will remain in place until the earlier of MIP regulatory restriction expiration, including any extensions, or repayment of the MIP loan. If the outstanding MIP loan is subordinated at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders. Funded: Only at permanent loan conversion.
