#### **Brief Project Description**

Ira D. Hall Square (the "Project") is a new construction, family and special needs, mixed-income project. It consists of one, 7-story residential building (5 levels of housing on top of 2 levels of podium parking) with elevators. There will be 176 total units, 174 of which will be restricted between 30% and 70% of the Santa Clara County Area Median Income (AMI). There will be 39 Studio (376 sf), 47 one-bedroom units (553 sf), 44 two-bedroom units (781 sf), and 44 three-bedroom units (1,081 sf). In addition, one of the two-bedroom units and one of the three-bedroom units will serve as the managers' units. 45 of the units are reserved for homeless individuals with serious mental health disorders referred from the County of Santa Clara Coordinated Entry system. The site will require the demolition of an existing industrial building that is currently vacant. The current owner of the site, the City of Sunnyvale, and the Project owner, Mid-Peninsula Baker Park, INC, entered into a Disposition and Development Agreement ("DDA") dated 5/19/2020 and first amendment to the DDA dated 12/14/2021. The DDA requires the Borrower to enter into a ground lease with the City of Sunnyvale as described below. On October 6, 2023, the DDA was assigned to the Project owner, MP Sonora Court Associates, L.P.

**Financing Structure:** The Project's financing structure includes financing from tax-exempt bonds, taxable and/or recycled bonds, 4% Federal Tax Credit equity, 4% State Tax Credit equity, City of Sunnyvale Housing Mitigation Funds, City of Sunnyvale Ground Lease Loan, a County of Santa Clara loan, Agency's tax-exempt permanent loan program and the Mixed-Income Program.

**Tax Credits and/or CDLAC Status:** The developer received an allocation for 4% tax credits and bond cap from CTCAC and CDLAC on 8/23/2023. The actual bond cap requested is approximately 52% aggregate basis requirement (the "50% test").

**Ground Lease:** The borrowing entity will enter into a ground lease agreement with City of Sunnyvale for a term of 65 years commencing at construction loan closing. Pursuant to the terms of the Ground Lease, the Partnership shall pay, in arrears, annual rent thereunder in the amount of the lesser of (i) One Million Three Hundred Fifty-Five Thousand Dollars (\$1,355,000) per year or (ii) the City's Pro Rata Share of Net Operating Income (as defined in the Ground Lease); provided, however, that the City's Pro Rata Share of Net Operating Income shall be applied first to repayment in full of the City Subordinate Loan, which will incorporate the City's land loan, according to the terms of the City Subordinate Loan documents. All terms of the City land loan and the Ground Lease are subject to the cash flow distribution requirements of CalHFA which are 50% of surplus cash to the borrower and 50% surplus cash split pro-rata between residual receipts lenders during years 1 through 15 which changes to 33% to the borrower and 67% to the residual receipt lenders starting after year 15.

**Project Amenities:** The Project includes a community room, playground, and central laundry facilities. Unit amenities will include window blinds, storage and coat closets, electric heat, microwave, dishwasher, and garbage disposal.

**Local Resources and Services:** For CTCAC/CDLAC purposes, the Project is located within a moderate resource area per CTCAC/HCD's Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Grocery stores 0.3 of miles
- Schools 2.1 of miles
- Public Library 2.9 of miles
- Public transit 0.1 of miles
- Retail 2.7 of miles
- Park and recreation 1.2 of miles
- Hospitals 0.9 of miles

Non-displacement and No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.  Commercial and/or Other (i.e., Parking) Space: The Project does not include commercial space.

#### **MISSION**

3. CalHFA Mission/Goals	
-------------------------	--

This Project and financing proposal provide 174 units of affordable housing with a range of restricted rents between 30% AMI and 70% AMI which will support much needed rental housing that will remain affordable for 55 years.

- State Tax Credits (Bank of America): \$15,099,626\* (\$86,779 per TCAC restricted unit).

The State Tax Credit loan will bear 0% interest and be repaid over time through the borrower's portion of surplus cash.

- Engaged GC pre-construction services for cost estimating and value engineering.
- Implementing Competitive Design Build scope to lock in pricing early for select trades.
- Engaged 3rd Party construction management with value engineering services.
- MidPen Building Design Guidelines provides guidance on efficient, high-quality design.
- The project will execute a Guaranteed Maximum Price (GMP) construction contract.

High-Cost Explanation: The total development cost per unit is \$881,466. The Project is in a HUD high cost-designated area of the Santa Clara Area. Other contributing factors are as follows:

- Capitalized ground lease payment (\$13,550,000) and demolitions cost (\$979,000) are included in the Total Development Cost of the project.
- The project is subject to state prevailing wages, which adds an estimated \$15,639,000 (15% to the hard cost budget of \$89,818,109.
- **6.** Equity Cash Out (estimate): Not Applicable

#### TRANSACTION OVERVIEW

#### 7. **Proposal and Project Strengths**

- The Project anticipates receiving 4% federal and state tax credits which is projected to generate equity representing 51.3% of total financing sources. Bank of America will be the investor and is paying \$0.99/credit for the federal credits and \$0.90/credit for state credits.
- The developer/sponsor has extensive experience in developing similar affordable housing projects and has experience with CalHFA.
- The Project will serve low-income families and special needs persons ranging between 30% to 70% of AMI. On average, the rents are between 14% to 70% below market rents based on an appraisal dated 10/24/2023 and prepared by BBG, Inc. .
- 75 units will be supplemented by Santa Clara County's Project-Based vouchers under the Section 8 program administered by the Santa Clara Housing Authority for a term of 20 years with an option to renew for 20 additional
- The Loan-to-Value for the permanent loan will be 55%. The combined LTV for the permanent and MIP loans is 59%, which are both well below the Agency's minimum requirements of 90% LTV. This results in less risk to the
- The localities have invested in the success of the Project as demonstrated by the following financial contributions: City of Sunnyvale Housing Mitigation Loan Funds (\$12,950,000); City of Sunnyvale – Ground Lease Loan (\$13,550,000); and Santa Clara County loan (\$11,200,000).
- The cash developer fee that will be collected at or prior to permanent loan conversion is \$3,980,000, which could be available to cover cost overruns and/or unforeseen issues during construction.

#### **Project Weaknesses with Mitigants:** 8.

- Updated Phase I dated 10/16/2023 identified environmental issues that detected elevated soil gas vapor levels. A vapor barrier membrane will be included in the GC contract and installed during construction as a precautionary measure. There is an estimated \$15,000 included in the construction budget for installation of the vapor barrier.
- The total estimated deferred developer's fee is not anticipated to be fully repaid by year 15 (assuming that the developer receives 50% of net cash flow which is consistent with MIP Term Sheet). The developer has confirmed that they will forgo any outstanding developer fee in year 15 and treat the amount as a developer's contribution which does not reduce the eligible basis or the tax credits available to the project. This condition will be documented in the investor commitment letter and/or LPA.

• The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. The exit analysis scenario assumes an interest rate of 10.28% which is 3% in excess of the current underwriting interest rate. Additionally, the exit analysis scenario assumes a cap rate of 6.5% which is 2% in excess of the current appraisal cap rate. Based on these assumptions, the Project will have the ability to fully repay the balance of the Agency's permanent first lien loan but only repay a portion of the Agency's MIP subsidy loan in the total estimated amount of \$923,856, leaving an outstanding balance of \$1,436,980 (principal and accrued interest) of MIP outstanding to be paid at maturity. This contemplates CalHFA receipt of its pro rata share of the ongoing cash flow from property operations. CalHFA's pro rata share is expected to be 4.41% of the total residual receipts, and the City and County receiving 67.19% and 28.4% of residual receipts respectively (to repay their loans). To the extent such a refinance is insufficient to fully repay the MIP loan, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership

#### 9. Underwriting Standards or Term Sheet Variations

obligations to allow re-syndication.

- Per MIP Term Sheet, the surplus cash from project operations is shared 50/50 between the Developer and the Residual
  Receipt Lenders (on a pro-rata basis). However, the County of Santa Clara is requiring that commencing from Year 15,
  the Developer receive 33% and the Residual Receipt lenders receive 67% of the surplus cash (to be shared pro-rata
  among the residual receipt lenders: County of Santa Clara, City of Sunnyvale and CalHFA). This does not negatively
  impact CalHFA's financing and hence this term sheet variation is acceptable to CalHFA underwriting standards.
- The Financial Analysis (FA) for the projected cash-flow from operations assumes the operating expenses provided by the Developer which are different than the recommendations in the Appraisal ordered by CalHFA (See Section 18 for line-item comments on operating expense variations). This resulted in higher Net Operating Income (NOI) for debt service and is considered as underwriting risk if the actual operating costs are higher than Developer estimate. This risk is mitigated by the property management agent's certification confirming the reasonableness of the operating budget and also the Developer's experience with operating similar projects in the area.

#### 10. **Project Specific Conditions of Approval**

Approval is conditioned upon:

- At permanent loan closing, MIP deed of trust will be recorded in second lien position, ahead of City and County deeds of trust.
- Prior to construction loan closing, City, County, CalHFA, and Investor evidence of confirmation of residual receipt split percentages as indicated in this staff report (in alignment with MIP Term Sheet 50/50 until Year 15 and thereafter per 33/67 per Section 9 of this staff report).
- The CalHFA loans will be secured against the leasehold interest in the land and fee interest in the improvements. All subordinate loans are to be secured in the same manner. However, if any lender encumbers both fee and leasehold interests in the land, the CalHFA loan documents will also secure in the fee and leasehold interests in the land. The final ground lease document is subject to CalHFA approval. Lessor must provide approval of CalHFA ground lease rider.
- Defaults under any loans used to capitalize payments or ongoing residual receipt payments required by the ground lease must not constitute a default under the ground lease.
- Any default as to any loans by the Agency for the Development shall constitute a default under any other loans by the Agency for the Development.
- CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.
- No site work or construction shall commence prior to the issuance of a HUD Firm Approval Letter.
- Receipt of a certification by the engineer on record that Project has been built to current seismic code which is acceptable to the Agency must be received prior to permanent loan closing.
- Subject to receipt and CalHFA approval of a subordination agreement subordinating TCAC's interests to the Agency loans prior to permanent loan closing.
- An estoppel as to the lien priority of the Agency loans and approval of the Agency's form of subordination agreement by all subordinate lenders prior to construction closing.
- Prior to construction loan closing, CalHFA approval of ground lease.
- CalHFA will require that the local funding regulatory agreements contain provisions allowing rent increases to the maximum TCAC rents if rental subsidies are no longer available.
- The total deferred developer's fee of \$5,377,123 will not be fully repaid by year 15 per project cashflow, therefore the owner must provide evidence of investor approval of the total deferred developer's fee structure. Receipt of LPA and investor written approval evidencing that any outstanding deferred developer fee remaining in Year 15 will be treated as a developer contribution.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing.
- All MIP Loan principal and interest will be due and payable full repayment of CalHFA permanent loan.
- Prior to permanent loan closing, evidence of compliance with the recommendations of the Phase I report dated 10/16/2023, as described in section 22.
- The locality is requiring the Borrower to encumber the Property by recording a "Density Bonus Developer and Regulatory Agreement and Declaration of Restrictive Covenants" (DBA) prior to issuance of a building permit. The Agreement is subject to CalHFA review and approval in accordance with agency underwriting standards The DBA is expected to be recorded in senior position which will require a CalHFA subordination agreement that will standstill certain provisions of the DBA in the event CalHFA takes ownership of the Project.
- Prior to permanent loan closing, receipt of certification that all environmental issues have been addressed during the course of construction.

The Multifamily Lending Division supports approval of the described financing in the amounts requested, subject to the above proposed terms and conditions.

#### 12. CalHFA Affordability (Occupancy and Rent) Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units at or below 60% of AMI (53 units) and an additional 10% of the total units (18 units) at 50% of AMI for 55 years.

The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 120 restricted units will be restricted at or below 120% of AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

The Rent Summary Table is outlined below, which reflects the total number of units for the applicable target occupancy (AMI):

		FINANCIAL ANALYSIS SUMMARY
14.	Capitalized Reserves:	
	Replacement Reserves (RR):	\$0 Capitalized replacement reserve.
		Year 1 \$88,000 Annual replacement reserve based on \$500 per unit per year. CalHFA will hold this reserve and the reserve payments will inflate by 1% annually.
	Operating Expense Reserve (OER):	\$1,031,918
	(OEN).	The USRM requires that the OER amount be sized based on a minimum between 3 to 6 months of operating expenses, first lien debt service, and annual replacement reserves deposits.
		For this Project, 3 months of operating expense, reserves, and debt service ("OER") is required to be held for the life of the CalHFA permanent loan. The OER may be based on 3 months of total operating expense, reserves, and debt service if the developer provides evidence that, within the last 2 years, they have received allocations from TCAC or provide a certification from a third- party accountant that they met TCAC's general partner and management experience pursuant to CTCAC regulations. The developer has submitted supporting documentation that they've met this requirement. CalHFA will hold this reserve for the term of the CalHFA permanent loan and in the event the OER is drawn down during the term of the loan, the OER must be replenished over a 12-month period to the original level.
	Transitional Operating Reserve (TOR):	The County is currently requiring a capitalized TOR of \$872,097, which they will hold. The County is in the process of creating a TOR pool similar to HCD where the Project can capitalize a nominal amount at permanent closing that will allow them to access the TOR pool if necessary. In the event the TOR pool is available at permanent loan closing, the capitalized amount will decrease.
		CalHFA is not requiring a TOR since the initial term of the Project Based Section 8 HAP Contract will be 20 years with an automatic renewal for an additional 20 years, which combined exceeds the term of CalHFA permanent first lien loan of 17 years. In addition, as a condition of CalHFA's approval, CalHFA will require that the local funding regulatory agreements contain provisions allowing rent increases to the maximum CTCAC rents if rental subsidies are no longer available.

#### 16. Loan Security

• The CalHFA loans will be secured against the Fee Interest in the improvements and the leasehold interest in the land as the Ground Lease terms do not permit lenders to secure their loans against the Fee Estate (See Section 10 "Specific Conditions for Approval").

#### 17. Balloon Exit Analysis Applicable: Yes No

• The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project's first mortgage. The exit analysis scenario assumes an interest rate of 10.28% which is 3% in excess of the current underwriting interest rate. Additionally, the exit analysis scenario assumes a cap rate of 6.5% which is 2% in excess of the current appraisal cap rate. Based on these assumptions, the Project will have the ability to fully repay the balance of the Agency's permanent first lien loan but only repay a portion of the Agency's MIP subsidy loan in the total estimated amount of \$577,355, leaving an outstanding balance of \$1,783,900 (principal and accrued interest) of MIP outstanding to be paid at maturity. This contemplates CalHFA receipt of its pro rata share of the ongoing cash flow from property operations. CalHFA's pro rata share is expected to be 4.41% of the total residual receipts, and the City and County receiving 67.19% and 28.4% of residual receipts respectively (to repay their loans). To the extent such a refinance is insufficient to fully repay the MIP loan, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.

#### **APPRAISAL AND MARKET ANALYSIS**

## 18. Appraisal Review Dated: 10/24/2023

- The Appraisal dated October 24, 2023, prepared by BBG, Inc., values the land at \$6,400,000.
- The cap rate of 4.5% and projected \$2,283,097 of net operating income were used to determine the appraised value of the subject site. The Borrower's estimated NOI is \$2,332,490 which is approximately \$49,393 (~2%) higher than the estimated NOI on the appraisal report and is due to the following:
  - The Borrower estimated approximately \$118,853 for administrative costs, which is \$21,947 (~16%) lower than the appraisal's estimated budget of \$140,800.
  - The Borrower estimated approximately \$347,150 for supportive services costs, which is \$53,500 (~13%) lower than the appraisal's estimated budget of \$400,650.
  - The Borrower estimated approximately \$14,038 for special assessments, which is \$8,287 (~44%) higher than the appraisal's estimated budget of \$8,287.
  - The Borrower estimated approximately \$93,164 for insurance, which is \$18,596 (~17%) lower than the appraisal's estimated budget of \$111,760.

Considering these deviations, the Developer's proposed operating expenses are used for underwriting purposes since they are reasonable based on the Developer's experience with operating a similar project in the area and

since they are reasonable based on the Developer's experience with operating a similar project in the area and per the property management agent's certification and property management agreement. In addition, MidPen sees savings in their operating expenses by providing property management services as well as supportive services to their projects, which is not accounted for in the appraisal.

- The as-restricted stabilized value is \$47,500,000, which results in the Agency's permanent first lien loan to value (LTV)of 55%. The combined LTV, including MIP subsidy loan is 59%.
- The capture rate is 0.4% and absorption rate is 25-30 units per month. These are generally consistent with the market study. The cap rate of 4.5% is based on the most recent information on comparable properties, which is 2 months old. Assuming an increase in cap rates due to current market conditions by 50 basis-points (5%), the LTV would be 54% at refinance. Stressing the cap further and adding 100 basis-points to the cap rate (5.5%) would result in an LTV of 58% at refinance, which is still within the underwriting requirement of 90% or less.

Market Study: The Concord Group Dated: 1/18/2023

#### **Regional Market Overview**

- The Primary Market Area is comprised of the cities of Sunnyvale and Santa Clara (population of 290,510) and the Secondary Market Area ("SMA") is Santa Clara County (population of 1,957,605).
- The general population in the PMA is anticipated to increase by 0.4% by 2026 and the population in the City of Sunnyvale is also projected to grow by 0.4% by 2026.
- Unemployment in the PMA is 3.6%, which evidences a strong employment area.
- The project is located to the immediate north of the Lawrence Caltrain Station, which links the site directly with employment and entertainment nodes from downtown San Francisco to San Jose.

#### **Local Market Area Analysis**

#### Supply:

- There are currently 29 family, special needs and senior projects (2,191 units) in the PMA (seven projects were surveyed for the market study) and they are effectively 100% occupied with long wait lists.
- There are 4 affordable family or special needs projects under construction which are anticipated to be completed between 2023-2024.
- There is 1 affordable project in the development pipeline that has been approved by the locality with a delivery date of 2025.

#### Demand/Absorption:

The project will need to capture 4% of the total demand for family units in the PMA. The affordable units are anticipated to lease up at a rate of 25-30 units per month and reach full occupancy within 6 months of opening.

# Mixed-Income Program (2023)

The California Housing Finance Agency (CalHFA or Agency) Mixed-Income Program (MIP) provides long-term, subordinate subsidy financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income (AMI).

The MIP subsidy loan (MIP Loan) must be paired with CalHFA's Conduit Bond Issuer Program and CalHFA's Tax-Exempt Permanent Loan Program. CalHFA will work with MIP applicants to assess the benefits of utilizing CalHFA's Bond Recycling Program during the project construction and/or permanent loan periods and may require recycled bonds to be included as a source, subject to availability and project feasibility. Eligible projects must create newly constructed, regulated units that meet the income and occupancy requirements reflected below. Approval of all MIP funding allocations will be subject to the sole discretion of CalHFA.

## **Mixed-Income Program Subsidy Loan Limits**

MIP Loan amount for each project will be based on project need and will be limited to the lesser of the following:

- 1. \$4 million; or
- \$50,000 per restricted unit (between 30%-120% AMI). Projects located within the Highest or High Resource areas pursuant to California Tax Credit Allocation Committee (CTCAC) regulations designated on the <a href="https://doi.org/li>
   HCD Opportunity Area Map">CTCAC/</a>
   HCD Opportunity Area Map shall be eligible for an additional amount up to \$10,000 per MIP regulated unit; or
- 3. 50% of the permanent loan amount.

# **Application**

MIP applicants must submit a completed application package which includes all items listed on the application, application addendum, and checklist. Incomplete application packages will not be considered. The application and checklist can be found at <a href="https://www.calhfa.ca.gov/multifamily/mixedincome/forms">www.calhfa.ca.gov/multifamily/mixedincome/forms</a>. If the MIP applicant is not able to meet the readiness timeline referenced below, MIP awards may be rescinded.

### Qualifications

### **Availability**

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet all the requirements in the Development Team Qualifications section below.

### Uses

MIP Loans must be used in conjunction with CalHFA's Conduit Bond Issuer Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender (as defined below). MIP Loans must also be used in conjunction with CalHFA's Tax-Exempt Permanent Loan Program. CalHFA will work with MIP applicants to assess the benefits of utilizing CalHFA's Bond Recycling

Qualifications: Uses continued

Program during the project construction and/or permanent loan periods and may require recycled bonds to be included as a source, subject to availability and project feasibility.

### **Financing Structure**

Projects accessing the MIP Loans must be structured as both of the following:

- 1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit financed; and
- 2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

### Readiness

MIP applicants must have evidence of site control and they must be prepared to submit for an award of tax-exempt bond cap and 4% tax credits from the California Debt Limit Allocation Committee (CDLAC) and CTCAC, respectively. Project applicants will only receive funds if an award of tax-exempt bond cap is issued within the issuance timeframes specified in the CDLAC Regulations Section 5100.

- Site: The site must be ready for construction. Any potential environmental issues must have been identified, mitigation plans must be in place, and costs associated with the mitigation plan must be incorporated in the development budget. Environmental issues may include, but are not limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, the MIP applicant is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment (notification date). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
- General Contractor and/or Third-Party Construction Services Engagement: At
  the time of application, the MIP applicant must provide evidence that a general
  contractor or third-party construction services company has been engaged to
  provide construction services including, but not limited to; value engineering,
  bid/budget services, and constructability review of plans and designs. The
  proposed construction budget must be based on the general contractor's or
  third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
- Disposition and Development Agreement: The MIP applicant must provide a copy of the disposition and development agreement, if applicable.
- Construction Start: All projects must commit to begin construction 180 or 194 days from the earlier of the date of the tax-exempt bond allocation or the 4% federal/state tax credit reservation, unless an extension has been approved by CTCAC, CDLAC, and CalHFA, as applicable. Within the 180- or 194-day period (as may be applicable pursuant to CDLAC Regulations Section 5230(i) and CTCAC Regulations Section 10325(c)(7)), the following items must be submitted to CalHFA in their final form:
  - An executed construction contract.

- A complete, updated application form with a detailed explanation of any changes, including but not limited to, changes in sources and uses from the initial application.
- Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this).
- Binding commitments for construction and permanent financing, including any sponsor loan and any other financing required to complete project construction.
- Copy of a limited partnership agreement executed by the general partner and the investor limited partner/equity provider.
- An updated CTCAC Attachment 16, if applicable.
- Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents.
- Copy of the notice to proceed delivered to the contractor.
- If no construction lender is involved, evidence must be submitted within 180 or 194 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred.
- Other documentation and information required by CalHFA to close construction financing.

### **Evidence Of Cost Containment**

A Cost Containment Certification must be provided at the time of Application and Construction Loan Closing, if applicable. The <u>Cost Containment Certification</u> acceptable to CalHFA may be found on the agency's website.

The MIP applicant must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but are not limited to:

- 1. competitively bidding out all major subcontractor and self-performing trades; and
- 2. engaging a value engineer/consultant during the design process.

### **Evidence Of Subsidy Efficiency**

A Subsidy Efficiency Analysis will be completed as part of the application review at initial commitment. The analysis will be completed again at final commitment, prior to construction loan closing, and closing of the MIP subordinate loan. The MIP Loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

 A maximum of 1.20x Debt Service Coverage Ratio (DSCR) at year 1 (Initial DSCR). CalHFA may allow an initial DSCR higher than 1.20x on a case-by-case basis, if deemed necessary. The underwriting prior to construction and permanent closing must show an on-going minimum DSCR of 1.15x through the term of the CalHFA permanent first lien loan.

- A project cash flow that supports the residential component of the project based on the required CalHFA permanent first lien annual debt service coverage ratio.
- A separate project cash flow that supports any commercial component of a mixed-use project, if applicable.
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation.
- Inflation factors and vacancy rates consistent with the Agency's Underwriting Standards.
- Developer Fee requirements consistent with CTCAC Regulation Section 10327(c)2(B).
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency's Underwriting Standards and the Investor Limited Partnership Agreement (ILPA).
- Review of Excess Sources over final Uses as approved by CalHFA resulting from any of the following:
  - An increase in tax credit equity.
  - An increase in permanent loan debt due to newly obtained financing, a
    permanent loan rate reduction or adjustments to residential income and
    operating expense assumptions.
- Construction Cost Savings funds evidenced by final cost certification shall be used to reduce the MIP Loan prior to CalHFA MIP Loan closing or if required by other subordinate lenders, funds may be split on a pro rata basis between CalHFA and other subordinate lenders.
- State tax credits (STC) maximum requested amount shall be consistent with CTCAC Regulations Section 10317. MIP Loan final commitment shall be subject to evidence of project's receipt of CDLAC's preliminary tax-exempt bond allocations and CTCAC's tax credits reservations within the respective year.
- Acquisition cost shall be the lesser of either:
  - 1. Purchase price pursuant to a current purchase and sales agreement between unrelated parties; or
  - 2. Purchase price of an arm's length transaction executed within the past 10 years plus reasonable carrying costs; or
  - Appraised "as-is" value based on a current appraisal acceptable to CalHFA
    in its sole discretion. The appraised value of the real estate may be considered if the arm's length transaction exceeds 10 years.

## **Project Application Ranking Qualifications\***

The prioritization of MIP project application(s) shall follow a ranking calculation method described below:

- 1. Project Public Benefit and Efficiency: MIP project applications shall be initially assigned a ranking number based on the highest amount of public benefit per dollar of the total cost-adjusted amounts of the tax-exempt bond allocation requested from CDLAC, plus the state tax credit allocation requested from CTCAC consistent with CDLAC Regulation Section 5231(g)(1) and 5231(g)(2) (Project Rank Number). Next, the Project Rank Number may be adjusted pursuant the below bonus factors, subject to eligibility:
  - MIP Efficiency Bonus: The total requested MIP amount as a percentage of the eligible maximum MIP per unit shall be eligible for an adjustment to the original Project Rank Number based on a sliding scale per the below chart:

ent	Adjustment	MIP as % of Eligible Maximum Per Unit
00	-0.500	<20%
75	-0.375	20-40%
250	-0.250	41-60%
25	-0.125	61%-80%
00	0.000	>80%

— STC and Soft Funds Leveraging Bonus: The total requested STC amount and total permissible soft funds (refer to limitations section) as a percentage of the maximum STC shall be eligible for an adjustment to the original Project Rank Number based on a sliding scale per the below chart:

<b>STC</b> as % of Eligible Maximum Per Unit	Adjustment
>80%	-0.500
61%-80%	-0.375
41-60%	-0.250

The maximum average affordability is up to 60% of AMI across all CTCAC restricted units.

### **Maximum Allowable Rents**

Rents for all restricted units must be underwritten at the lesser of either:

The report shall be current within 90 days of Agency's final commitment and may be subject to a new or updated report if the appraisal was completed more than 90 days prior to construction and/or permanent loan closing, in the Agency's sole discretion.

Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents not to exceed 30% of the applicable income restriction (target occupancy) required in the Agency's Regulatory Agreement.

**Subject:** Agenda Item 11 B – Asset Management Quarterly Portfolio

Report

The CalHFA Asset Management Portfolio is comprised of 768 projects with a balance of \$1,254,120,060 in financing as of September 30, 2023. The CalHFA portfolio consists of 17,646 affordable regulated units throughout the State of California.

The portfolio is broken down by type of program as follows:

- 1 Section 8 (Contract Administrator)
- 95 CalHFA Permanent (Risk Share)
- 214 CalHFA Permanent (Non-Risk Share)
- 180 Mental Health Services Act
- 30 Special Needs Housing Program
- 86 Conduit
  - 7 HELP Loan
- 40 Section 811 (Contract Administrator)
- 115 School Facility Fee Reimbursement Program
- 768 Total

The portfolio has a low delinquency rate of 0.2%, which is only four projects.

There are three projects on the Watch List for various issues, such as untimely submission of annual financial reports, lack of compliance with the regulatory agreement, or pending completion of physical improvements recommended at time of inspection.

## **Preservation Strategy**

There are 44 loans on 39 projects (three projects have two or more CalHFA loans) scheduled to mature within the next five years. The Multifamily Program has initiated a

preservation strategy of the existing portfolio in an effort to extend affordability of the CalHFA financed projects.

The goals of the Multifamily Asset Management Program are to increase and preserve the supply of the affordable housing, assure the maintenance of a quality living environment, assure the projects are financially sound and sustainable, and to cooperate with local jurisdictions to advance affordable housing throughout the State.
